

Numerical Reasoning Test

0 1 3 6 10 ?

Choices: 16, 15, 12, 6

Correct: 15

The last number plus 1, then the last number plus 2, last number plus 3, etc.

1 1 2 3 5 ?

Choices: 8, 7, 10, 6

Correct: 8

The next number is the current number plus the last number.

21 20 18 15 11 ?

Choices: 26, 17, 8, 6

Correct: 6

The last number minus 1, then the last number minus 2, then minus 3, etc.

8 6 7 5 6 4 ?

Choices: 3, 9, 5, 7

Correct: 5

There are 2 separate decreasing series. The first decreases from 8 to 7 to 6 to the correct answer 5. The other decreases from 6 to 5 to 4.

65536 256 16 ?

Choices: 2, 13, 4, 8

Correct: 4

The current number is the square root from the last number.

55 30 14 5 ?

Choices: 1, 3, 0, -4

Correct: 1

The difference between numbers is a decreasing squared series of 5,4,3,2 (25, 16, 9, 4).

3968 63 8 3 ?

Choices: 1, 8, 2, 0

Correct: 2

The next number is the current number plus 1, and then root squared.

1109 1116 1123 ?

Choices: 1130, 1131, 1128, 2134

Correct: 1130

The next number is the current number plus 7.
