Mr. Giansante

C++ Programming
Quiz Game

August 2018

Quiz Game

Create a C++ program that will simulate a simple Quiz Game.

The User Interface should be similar to the Friends Database.

Your game should have a minimum of 5 questions and each question should have 4 possible responses.

The user should be alerted if they got the question right or wrong.

After all the questions, the user should be alerted as to how many questions they got right.

Start Screen

You can use the website below to generate large ASCII text for your start screen:

```
http://patorjk.com/software/taag/
```

When using this website note that you will need to replace the "\" characters with "\\".

Quiz Game

Ontario

Please fill out all the information in this column using a pen before getting this assignment marked.

_____
Name

_____   _____
Date   Class

Academic Honesty

The work I am submitting is completely my own creation and has not been copied from anyone else's work. If I have received help on this project, the names of those who have assisted are listed below.

_____
Signature

_____

_____
