**Project
Removing People**

February 2019

Project - Removing People

Throughout history, photo manipulation has been an important propaganda tool.

This often involved removing people or objects from photos.

For this project, you will be removing a friend(s) from a photo.

You can use a photo you already have or take a new one.

You must include "before" and "after" photos, as well as the tools used and steps taking.

Include at least 2 "in progress" photos showing your work.

Nikolai Yezhov, pictured right of Stalin, was later removed from this photograph at the Moscow Canal. (Credit: Fine Art Images/Heritage Images/Getty Images & AFP/GettyImages)
