Project - Spot the Differences

Create a "Spot the Differences" photo puzzle. Use an original photo and make 5 to 10 subtle (hard to find) changes in the photo. Put both photos side-by-side and challenge the player to find the ten differences.

You must include "before" and "after" photos, as well as the tools used and steps taking. Include at least 2 "in progress" photos showing your work.

Note: The example below only has 3 changes.
